

Enbox Limited is Recruiting...

DEVELOPMENT MANAGER

Enbox Limited is a small and dynamic company providing web-based environmental tools to the construction industry. Formed in 2012, we have developed a number of tools that we continue to develop and sell. Our products are currently in use on some of the UK's largest construction projects, including Crossrail and Tideway. Our current products include:

- Live noise, vibration and dust monitoring system
- Section 61 Application and Consent database

» THE JOB

In order to continue to grow the company, we are seeking to take on a full-time employee to assist with all areas of the business. You would report to the Directors and would carry out the following activities:

- Product development of existing and future products
- Liaison with our web developers and other technical suppliers
- Product support for existing customers
- Preparing and implementing a marketing and sales strategy

The package on offer will be commensurate with experience and will be discussed during the interview process.

» THE CANDIDATE

In order to be considered for this position, you will be able to demonstrate most of the following:

- An ability to understand and communicate on technical issues
- Experience of business development
- Experience of marketing and sales
- Basic understanding of noise, vibration and environmental metrics
- Excellent communication skills
- Self-motivation, innovation and ability to work both alone and as part of a team
