

## Opportunity

Acoustic & Engineering Consultants Ltd (AEC) is seeking to employ an additional suitably experienced consulting engineer to assist with its significant building and environmental acoustics portfolio.

Established in 1992, AEC has developed into one of the primary acoustic consultancies in the northwest. Our range of projects includes leisure, cinemas, education, healthcare, transportation and residential schemes.

The office is situated in a canal-side location in Marple, Stockport, close to major road and rail links and within easy reach of Manchester city centre.

If you are looking for an opportunity to work in, and develop, a friendly, relaxed and informal company, please contact either Kevin Worthington or Andy Burke.

We would welcome the opportunity to meet and discuss our requirements with you.

Remuneration package negotiable with option of company car. Workplace pension in place.

Full driving licence required.
