

WE'RE RECRUITING.

Junior & Senior, Principal Acoustic Consultants

CDC is an independent specialist design consultancy providing Fire Engineering and Acoustic Design services to a wide variety of projects in the built environment.

Following significant growth in our UK and overseas markets we are seeking to recruit Junior and Senior / Principal Acoustic Consultants, who can help to grow and shape our Acoustics business.

For the Junior roles you will have a minimum of 1 year experience. You will have good knowledge of using and applying standards and undertaking noise surveys. For Senior / Principal roles, you will have a minimum of 5 years' experience in delivering acoustic support to a wide range of building related projects. You will be able to demonstrate excellent technical skills coupled with project management and business development skills. A broader understanding of environmental acoustics, as well as buildings would be beneficial.

You will assist and manage the acoustic input to our acoustics project portfolio. You will have the opportunity to play a key role in the growth of the business and work on some exciting challenging project across the UK and Internationally.

You will be based within our Colchester office, or our new Manchester office. Home working and flexible working arrangements are also possible and part time roles may also be considered for the right candidates. As would be expected CDC offers highly competitive salaries and benefits for the right candidates.

We would welcome any informal discussions on these positions, please call **01206 809 598** for more information, or send CVs directly to **info@cdc-limited.co.uk**
