

Hann Tucker Associates

Consultants in Acoustics Noise and Vibration

Hann Tucker Associates is one of the leading independent acoustic consultancies in the UK, advising in all areas of acoustics, noise and vibration. We have an enviable portfolio of diverse and prestigious projects covering office, residential, educational, health, retail, leisure and industrial developments.

Our head office is in Woking town centre, near the mainline station (London Waterloo 25 minutes). We also have a northern office in the heart of Manchester.

We are seeking to expand our consultancy staff in both offices.

Candidates should be enthusiastic to work as part of a team and keen for exposure to a wide range of projects and acoustic design disciplines. The nature of our work does necessitate travel throughout the UK, so a full driving license is essential.

We offer a competitive remuneration package, and are also confident you will find the work varied, rewarding and fun.

To arrange an informal interview please send your CV with a covering letter (advising salary aspirations) to m.usherwood@hanttucker.co.uk

* One Blackfriars, London
