

Recruitment Solutions: **Acoustics | Noise | Vibration**

Since 2004, MSA has provided a bespoke recruitment service to clients and candidates working in Acoustics, Noise and Vibration. As a niche recruiter in this sector, we have developed a comprehensive understanding of the industry enabling us to provide candidates with a wealth of information and a consultative approach to securing your next career move. We are currently recruiting for the positions listed below – and for a comprehensive list of our current vacancies, please visit:

www.msacareers.co.uk/vacancies/acoustics-noise-vibration

Consultant/Senior Acoustician | Heathrow area | £35,000 to £45,000

Our client is a leading independent acoustic consultancy established for almost 30 years. They provide practical advice to clients across a range of sectors including commercial developments, hospitals, education facilities, offices and broadcasting. They also provide planning and environmental noise services to industry – including aviation and automotive. Due to increasing demand for their professional services, they are seeking to appoint a Senior Acoustic Engineer with 4 or more years' experience within Acoustic consulting. You will have a relevant degree and be able to demonstrate an ability to run projects independently. Excellent communication skills are required, as is the ability to write clear and concise final reports. Experience of using modelling software is essential: preferably ODEON, SoundPlan, INSUL and/or Bastian

Principal Acoustic Consultant | Warwickshire | to £45,000 + Car + Bonus + Pension

Our client is an independent Noise & Vibration Consultancy specialising in Building & Environmental Acoustics. Due to growing demand for Noise & Vibration assessment services by their growing client base, they are seeking to recruit a degree qualified Acoustician to work as a Principal Consultant at their offices in Warwickshire. The company undertake noise & vibration monitoring and surveys for range of projects including schools, hospitals, housing developments and offices. The company invest heavily in IT and use a range of modelling software including SoundPLAN and MATLAB. This is a fantastic opportunity for an experienced Acoustician with around 7+ years' consultancy experience with Building Acoustics. You will undertake desktop design surveys and high-level building acoustics design, working on framework agreements with some of the UK's major house builders.

Technical Lead (Environmental Noise) | Location flexible | up to £50,000 + Benefits

Our client is a leading environmental multidisciplinary consultancy offering a range of services to clients across the property, manufacturing and energy sectors. They have an attractive opening to work alongside and compliment the Head of Acoustics. Acting as technical lead to the Acoustics team - which is spread across 5 UK offices - you will provide high level technical peer review to members of the team and sound advice to the diverse client base. You will be managing complex, large-scale projects across highways, industrial, rail and energy sectors. You will possess excellent report writing skills, along with the ability to impart this knowledge to team members. This role will NOT involve business development and recruitment responsibility - as such, we are seeking a top level technically robust Acoustician to lead on all technical matters. Location can be flexible - but you will ideally be located in the North West of England, the Midlands, Bristol or the M1 Corridor. Travel to other UK offices to work alongside other team members will be expected.

Principal / Associate Building Acoustician | HOME-BASED (London) | up to £70,000

I have an outstanding role for an experienced and talented Acoustic Consultant to lead and develop Acoustics work in the South for this growing independent Acoustic Consultancy. This position would suit a strong all-rounder with a leaning to Building Acoustics and Mechanical Services / HVAC noise. You will be the face of the company in the South - with the majority of clients based in and around South London / Essex / Croydon regions. The role will be home based and will require occasional visits to the HQ in Manchester. Unlimited prospects for growth with potential to achieve Director status.

Acoustic Consultant | Chester | up to £34,000

This role represents an excellent opportunity to join an established team in the North West, working as part of a wider Acoustics division with offices throughout the UK. Our client is looking to hire an Acoustician with between 3 to 5 years' experience within consultancy, with a focus on Environmental / Industrial / Transportation Noise. The role will involve data collection, processing, noise modelling (SoundPLAN experience would be welcome) and preparation of reports and tenders connected with Noise and Vibration assessments. More experienced candidates will manage large-scale projects and assist with mentoring junior members of the team. A competitive salary, generous benefits package and a great working environment in a beautiful location is available to the successful applicant
