

Recruitment Solutions: **Acoustics | Noise | Vibration**

Since 2004, MSA has provided a bespoke recruitment service to clients and candidates working in Acoustics, Noise and Vibration. As a niche recruiter in this sector, we have developed a comprehensive understanding of the industry enabling us to provide candidates with a wealth of information and a consultative approach to securing your next career move. We are currently recruiting for the positions listed below – and for a comprehensive list of our current vacancies, please visit:

www.msacareers.co.uk/vacancies/acoustics-noise-vibration

Acoustic Consultant | Nottingham | £25,000 to £33,000 + Benefits + Flexible working

This is an excellent opportunity for an Acoustician with 2+ years post graduate experience to work within a small but expanding Acoustics team as part of a large multi-disciplinary consultancy business. Candidates should have experience in building acoustics / preparing outline and detailed assessments for planning of residential developments / conducting site surveys / ideally some EIA experience. You will work alongside the Acoustics team lead in the Nottingham office.

Sales Manager: Noise Control Engineering | Home-based (South East of England) | Up to £45,000 + Bonus

Our client is a manufacturer of specialist Acoustic and thermal containers supplied to clients across the Power Generation and Industrial markets. They have an excellent opportunity for a Sales Manager to operate in a home-based role covering the South of England. We are seeking applicants with a proven track record of selling acoustic noise control equipment within a manufacturing / industrial environment. This role will be home-based covering the South East of England, so suitable access to the south-east motorway network is essential. A basic salary of up to £45,000 is on offer to exceptional candidates, along with a performance related bonus.

Principal / Associate Director | Wilmslow, Cheshire | £45,000 to £60,000 + Bonus scheme + Benefits

Our client is a well-established independent specialist Acoustic consultancy, with a solid reputation and growing client base. They are seeking to recruit a talented Acoustic Consultant with experience across both Building Acoustics, and Environmental Noise & Vibration a reliable Acoustician to join them in their offices in Cheshire. The workload is varied and provides a good mix of commercial & residential developments, mixed-use schemes - with some industrial and mechanical noise elements all involved. We are seeking a candidate who can manage projects and fulfil client expectations from initial enquiry to final handover. Experience of modelling using CadnaA, writing Environmental Noise chapters to support EIAs and providing Expert Witness testimony is required.

Acoustic Consultant | Suffolk | £22,000 to £27,000

Our client is seeking to appoint a capable Acoustician with 1 to 2 years' experience to work within their growing team in Suffolk. The principal duties of this position will involve arranging and delivering environmental noise surveys and UKAS accredited sound insulation testing, preparing and delivering acoustic design assessments for residential / commercial / school developments (BS 8233 / BB93), preparing and delivering atmospheric noise emission assessments (BS 4142), room / façade / glazing break-in / sound transmission calculations, providing advice to contractors during construction, sound insulation / ambient and reverberation measurements, preparing fee proposals, liaising with clients.

Acoustic Consultant | Royal Tunbridge Wells | up to £32,000

This is a terrific opportunity to work in a beautiful location assisting the Principal Acoustician on a range of acoustics projects across Buildings, Planning and Environmental Noise Assessment. Supported by a network of experienced Acousticians and surveyors across the UK, your role will be predominantly office based to assist the Principal Acoustician in successfully delivering projects to a range of clients. They are ideally seeking a candidate with 2 to 4 years' experience in consultancy, who possesses good modelling skills (preferably with CADNA) and solid report writing abilities.

Senior Environmental Noise Consultant (Team Leader) | Birmingham | £40,000 + Benefits package

Our client is an independent environmental and planning consultancy with offices based at various locations around Central England. They are expanding their Noise services and as a result are seeking to recruit a consultant with a minimum of 4 or more years' experience in environmental noise assessment within consultancy. Your role will be act as Lead Acoustic consultant in Birmingham, with a view to growing a team in that office. You will be supported by Noise specialists in other regional offices, as well as the Director of the Birmingham branch. Candidates will be familiar with working on a range of residential / transportation developments and be conversant with BS4142 / BS8233.
