

## **Acoustic & Engineering Consultants Limited**

### **Acoustic Consultant/Senior Acoustic Consultant Greater Manchester**

Acoustic & Engineering Consultants Ltd (AEC) are looking to employ an acoustic consultant with at least 2 years' experience and/or a senior acoustic consultant with at least 5 years' experience.

#### **Company Profile**

Established in 1992, AEC is an independent consultancy that works in all areas of acoustics, including: noise & vibration assessments for planning; building acoustics design; sound insulation testing; transport noise assessments; industrial noise control; noise at work; expert witness; and environmental impact assessments.

AEC works on a wide variety of projects which include: cinemas; hotels; residential schemes; education buildings; hospitals; road and rail schemes, and industrial premises.

#### **Role**

The role would primarily involve: undertaking environmental noise surveys; pre-completion sound insulation testing; building and checking 3D computer noise models using CADNA-A and CATT software; undertaking spreadsheet based acoustic calculations, and writing technical letters/reports.

The candidate would be expected to undertake site visits outside of normal office hours and be prepared to travel within the UK as required. However, the majority of AEC's work is currently in the northwest.

#### **Requirements**

Candidates would ideally be a member of the Institute of Acoustics (IOA) and have a full driving licence.

#### **Senior Acoustic Consultant**

You should have a minimum of 5 years' experience, including liaising with clients, attending design team meetings, managing projects and peer reviewing technical letters / reports prior to submission.

#### **Acoustic Consultant**

You should, ideally, have a minimum of 2 years' experience, be used to attending site, and ideally, have experience of using acoustic modelling software. Time would be provided for training and CPD in order for you to develop your acoustics knowledge and consultancy skills. This would include external conferences and training as required.

#### **Remuneration Package**

Competitive salary offered, including the option of a company car. Workplace pension scheme in operation.
